

In brief

I am a strong and target oriented project manager with a broad competence. My background is in manufacturing, economics, project management, marketing and business development in Texaco, Ericsson and Nokia, in Sweden and abroad (3 years in Brazil and 6 years in Spain). I have a thorough knowledge of the IT and telecom business.

I am an entrepreneur, result oriented, positive and outgoing. With a number of business development projects behind me, as well as being on the board of small companies, I have a track record of getting things done.

I can help you with

Project management in business- /process- /product development and customer /implementation projects. Investigations, prestudies, reviews.

Business development, product management, plans, strategies.

Search for technologies, products, partners.

Manager for hire.

I have

10 years' consulting experience.

20 years' experience from IT and telecom as factory manager, controller and business manager.

Very good language proficiency.

Education and languages

1972 Civilekonom Göteborgs Handelshögskola (roughly MBA)

1970 Civilingenjör Chalmers Tekniska Högskola

English, Spanish, Portuguese fluently, French and German conversation, learning Chinese

Certified PMP (Project Management Professional) by PMI

President in Rotary Sollentuna-Tureberg
